PARINYA THIPSUKHUM

FULL STACK DEVELOPER

PROFILE INFO

Highly motivated Full Stack Developer with a background in Food Science (B.Sc., KMUTNB). Leverages strong analytical skills, meticulous attention to detail, and the ability to perform under pressure—honed through rigorous academic laboratory work—into writing clean and efficient code. Deeply passionate about software development with a continuous drive to learn new technologies. Proven ability to utilize modern web frameworks and AI-driven tools to optimize workflows and deliver high-quality digital solutions.

EXPERIENCE

- SOFTWARE ENGINEER

SO OUTSOURCING (SIAM RAJATHANEE PCL)

Aug 2025 – Mar 2026

 - Bootstrapped a confidential greenfield software project from scratch, establishing the core architecture and foundational codebase.
 - Collaborated closely with later-onboarded Project Managers to iteratively translate incoming business requirements into robust full-stack features.
 - Engineered and optimized both frontend and backend solutions using modern web frameworks to ensure system scalability and high performance.
- FREELANCE DEVELOPER

SELF-EMPLOYED

2022 – Jul 2025

 - Designed and developed custom web applications for various clients, managing projects from initial requirements gathering to deployment.
 - Utilized modern technologies (e.g., React, Next.js, Tailwind CSS) to create responsive and user-friendly interfaces.
 - Communicated effectively with clients to translate business needs into technical solutions, ensuring timely and high-quality delivery.

PROJECTS

- TECH BLOG & PORTFOLIO (PICKYZZ.DEV)

Personal

ASTRO, TAILWIND CSS, GITHUB ACTIONS

 - Developed and deployed a high-performance personal blog to showcase technical articles and software projects.
 - Implemented an automated CI/CD pipeline utilizing GitHub Actions with a self-hosted runner.
 - Architected a cross-repository workflow utilizing Git submodules to efficiently manage source code.
- NEXTDNS LOG VIEWER

Personal

NEXT.JS, TAILWIND CSS, NEXTDNS API

 - Designed and developed a web application to fetch, visualize, and analyze network traffic logs utilizing the NextDNS API.
 - Created an intuitive user interface for effective log filtering and monitoring.
